

Faster and Quieter on Less Fuel... Your Best Flying Experience

With a Duc propeller on your light sport aircraft, you'll get a faster climb and cruising speed plus a longer and more comfortable ride.

Advanced European Propeller Technology Right Here

Get one of the latest Carbon fibre propellers with more strength and just one third the weight of a conventional prop. You can have a ground-adjustable propeller just as efficient as a complex and costly variable-pitch one. Follow the choice of Fly Synthesis, Zenair Europe, and other aircraft manufacturers...

Premium Quality and Reliability for the Same Price

Others may claim to have the best product, but we prove it with a 6 year structural guarantee

- Delivery (if in stock): NZ - 48 hours, Australia - 5 days.
